DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by 4235920.

The reference shows thienamycin. Claim 1 has “or a derivative thereof”. The claim is just a protected version of thienamycin, and therefore, thienamycin is a derivative of this compound, formed by removal of protecting groups. Deletion of “or a derivative thereof” will resolve the matter.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The scope of “or a derivative thereof” is unknown, as one does not know how much variation can be done and the molecule still be a “derivative thereof”. Likewise in claim 4. Deletion is suggested.

Information Disclosure Statement

The two foreign patents were struck from the IDS as no copy of the actual patent was provided.

Specification

The abstract states that there is a process, but does not set forth what the process actually consists of.
